## ARVIND LIMITED

## Review of financial results for the period ended March 31, 2009

Quarter \& Year ended 31sT MARCH 2009 FINANCIAL PERFORMANCE

## 2008-09 - A difficult year

## Key Drivers which went wrong

- A two way currency movement
- Company's revenues were hedged at Rs. 40
- Sharp depreciation of rupee led to significant MTM losses on short term borrowings- loss of Rs. 55 cr . as compared to gain of Rs. 32 cr . in previous year
- Non availability of gas:
- Average cost of power for the year was Rs. 7.2 per unit which when compared with the external cost of power, resulted in a loss of Rs. 43 cr.
- Cotton cost
- Cotton prices were higher by $25 \%$
- Effect of global meltdown
- Demand of fabrics (particularly denim) was severely affected. YOY drop of $6 \%$ in volume

## Company's initiatives

- Focus on higher priced/margin business
- Denim realization increased $13 \%$
- Garments price growth 10\%
- Focus on improved productivity
- Garments volume growth 18\%
- Cost rationalization
- Fixed overheads reduced by Rs. 25 cr. p.a.
- Expanding customer base
- Added new customers like J C Penny (Denim),
- improved business with Old Navy, H \& M,
- Refocused domestic market with product strategy

EBIDTA margin dropped from 12.7\% to 11\% MTM loss Rs. 55 cr. compared to gain of Rs. 32

## Arvind Limited-Q IV

- Sales lower by $11 \%$ due to reduced revenue in Brands \& Retail business by Rs. 27 cr . and discontinuation of Cotton exports activity (Rs. 96 cr. Q4 : previous year)
- Lower EBIDTA on account of reduced margin in Brands \& Retail Business. EBIDTA margin in brands \& Retail business -QIV
- 2007-08: 11\%
- 2008-09: 0.5 \%

Outlook

## Backdrop

- Macro economic factors
- Currency
- $\$=47-48$ restores competitiveness of Indian Exports to level of China
- Cotton prices
- Though cotton prices have moved up in last one month, we expect that cotton prices will be lower by $5 \%$ for the whole year compared to previous year
- Gas
- Company has tied up gas supply for 9 years with GAIL
- Industry scenario
- Due to cost pressures, customers are shifting sourcing more aggressively than ever before leading to higher off take from Asian countries including from India
- Domestic market continues to perform without significant drop in volumes

## Backdrop

- Growth Initiatives
- Productivity improvements:
- Company has undertaken massive productivity improvement drive in its garments plants and expects over 40\% growth in garments sale for the year
- "Intellifabrics"
- Company has started selling several types of performance fabrics by expanding its retail presence under the brand "Arvind".
- Targeting to have 600 distribution points in India by end of the current financial year

## Revenue \& Margin Growth
