## ...as reflected in key indicators for the 3 quarters

## Key differences between IGAAP \& IndAS for Arvind

1. Revenue, Expenses, EBIDTA and PBT of Joint Venture Companies where Arvind does not have controlling interest will now not get added to those of other businesses/companies. Only PAT will be added in consolidated PAT of the Company

- Arvind Tommy Hilfiger, Calvin Klein Arvind (CK), Arya Omnitalk (one to many radio and GPS business) and Smart Value (JV with Tata for township development) are the four businesses where Arvind does not have controlling interest.
- In view of this, revenue and EBIDTA figures of Arvind Tommy Hilfiger which were hitherto were being shown as part of Power Brands will no longer be included. Power Brands figures given in this document and future similar documents will contain figures of USPA, FM \& Arrow.

2. Sales made to dealers where the dealer has a right to return unsold inventory have been reversed to the extent of anticipated return. Similarly, margin on such sales has been reduced from the EBIDTA. Revenue now will be based on goods actually sold to the customers.
3. To account for revenue at fair value of consideration received / receivable, provision for anticipated discount to dealers is being made.

## Agenda

- Q3 FY 2017 performance
- Business Analysis
- Outlook

## Outlook for full year FY2017

- Upswing in December and initial trends for first 3 weeks in January FY2017 suggest that the markets are leaving behind the impact of demonetization, and resuming the normal growth rates
- Revenue Growth likely to be $\sim 15 \%$
- Revenue growth in Textiles ~8\%
- Revenue growth in Branded Apparel at ~25\%
- Overall company margins likely to be lower due to larger proportion of Branded Apparel revenues, and investments in Internet business
- Likely improvement in Q4 margins in Branded Apparel segment to help maintain full year margins (YTD FY17 @ 4.2\% vs 4.9\% for corresponding period last year)

Thank You!
