# NOTES TO FINANCIAL STATEMENTS MARCH 31, 2024

#### Note 1 – Description of company's business

Arvind Worldwide Inc. (the "Company") is a wholly owned subsidiary of Arvind Limited (the "Parent"), a company based in India. The Company was incorporated on February 24, 1993 in Delaware. The Company provides marketing support services to customers located in the United States of America on behalf of the Parent.

#### Note 2 – Summary of significant accounting policies

#### Basis of accounting

The Company's accounting policies are in accordance with accounting principles generally accepted in the United States of America. Outlined below are those policies considered particularly significant.

#### Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

#### Concentration of credit risk

Financial instruments, which potentially subject the Company to significant concentrations of credit risk, include cash and accounts receivable. The Company holds no collateral for these financial instruments. The Company maintains cash in financial institutions that are insured by the Federal Deposit Insurance Corporation up to a specified amount. Such cash balances at times may exceed these limits. To minimize its credit risk with respect to accounts receivable, management monitors the creditworthiness of the customers and reviews the outstanding receivables at period end, as well as establishes an allowance for doubtful accounts as deemed necessary.

#### **Accounts receivable**

Accounts receivable are stated at original amount less an allowance for doubtful accounts. The allowance for doubtful accounts is determined through an analysis of the aging of accounts receivable at the date of the financial statements, assessments of collectability based on an evaluation of historic and anticipated trends, the financial condition of the Company's customers, and an evaluation of the impact of economic conditions. At March 31, 2024, management has determined that an allowance for doubtful accounts is not required.

# NOTES TO FINANCIAL STATEMENTS MARCH 31, 2024

# Note 2 – Summary of significant accounting policies (continued)

#### **Property and equipment**

Property and equipment are stated at cost. Depreciation is computed using the straight-line or an accelerated method over the estimated useful lives of the assets, ranging from 3 to 7 years. Leasehold improvements are amortized over the lesser of the lease term or the estimated useful asset lives. Major additions are capitalized and repairs and maintenance costs are expensed when incurred.

### **Long-lived assets**

The Company periodically evaluates the carrying value of long-lived assets to be held and used whenever events and circumstances indicate that the carrying value of the asset may no longer be recoverable. An impairment loss, measured based on the fair value of the asset, is recognized if expected future undiscounted cash flows are less than the carrying value of the assets. At March 31, 2024, the Company was not aware of any events or changes in circumstances that indicate the carrying amount of an asset may not be recoverable.

#### Revenue recognition

The Company recognizes revenue from services when the services are rendered, it can be reliably measured, and collectability is reasonably assured.

#### Advertising and promotional expenses

Advertising and promotional expenses are expensed during the year in which they are incurred.

#### Income taxes

The Company uses the asset and liability method of accounting for income taxes, where deferred tax assets and liabilities are recognized for differences between the financial statement and tax bases of existing assets and liabilities. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The Company evaluates all significant tax positions. At March 31, 2024, the Company does not believe it has any uncertain tax positions that would qualify for either recognition or disclosure in the financial statements.

#### Leases

The Company follows the lease accounting standard, and subsequent amendments thereto, which requires lessees to recognize right-of-use assets and right-of-use liabilities calculated based on the present value of lease payments for all lease agreements with terms that are greater then twelve months.

# NOTES TO FINANCIAL STATEMENTS MARCH 31, 2024

### Note 2 – Summary of significant accounting policies (continued)

#### Leases (continued)

The Company elected the available practical expedients to account for existing operating leases under the new guidance, without reassessing (a) whether the contracts contain leases under the new standard, (b) whether classification of operating leases would be different in accordance with the new guidance, or (c) whether the unamortized initial direct costs before transition adjustments would have met the definition of initial direct costs in the new guidance at lease commencement.

#### **Subsequent events**

The Company has evaluated subsequent events through April 12, 2024 which is the date the financial statements were available to be issued.

#### New authoritative accounting pronouncements

The Company does not anticipate the adoption of other recently issued accounting pronouncements to have a significant impact on the Company's financial statements.
