Description of company's business

Arvind Worldwide Inc. (the “Company”) is a wholly owned subsidiary of Arvind Limited (the “Parent”). The Company was incorporated on February 24, 1993 in Delaware. The Company provides marketing support services to customers located in the United States of America on behalf of the Parent.

Summary of significant accounting policies

Basis of accounting
The Company’s accounting policies are in accordance with accounting principles generally accepted in the United States of America. Outlined below are those policies considered particularly significant.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that could affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Concentration of credit risk
Financial instruments, which potentially subject the Company to significant concentrations of credit risk, include cash and accounts receivable. The Company holds no collateral for these financial instruments. The Company maintains cash in financial institutions that are insured by the Federal Deposit Insurance Corporation up to a specified amount. Such cash balances at times may exceed these limits. To minimize its credit risk with respect to accounts receivable, management monitors the creditworthiness of the customers and reviews the outstanding receivables at period end, as well as establishes an allowance for doubtful accounts as deemed necessary. At March 31, 2016, the entire accounts receivable balance of $762,830 represented amounts due from the Parent.
Note 2

Summary of significant accounting policies (continued)

Accounts receivable
Accounts receivable are stated at original amount less an allowance for doubtful accounts. The allowance for doubtful accounts is determined through an analysis of the aging of accounts receivable at the date of the financial statements, assessments of collectability based on an evaluation of historic and anticipated trends, the financial condition of the Company’s customers, and an evaluation of the impact of economic conditions. At March 31, 2016, the management has determined that an allowance for doubtful accounts is not required.

Property, plant and equipment
Property, plant and equipment are reflected at cost. Depreciation is provided using the straight-line or an accelerated method over the estimated useful lives of the assets. Repairs and maintenance are expensed when incurred.

Long-lived assets
The Company periodically evaluates the carrying value of long-lived assets to be held and used whenever events and circumstances indicate that the carrying value of the asset may no longer be recoverable. An impairment loss, measured based on the fair value of the asset, is recognized if expected future undiscounted cash flows are less than the carrying value of the assets.

Revenue recognition
The Company recognizes revenue from services when the services are rendered.

Advertising and promotional expenses
Advertising and promotional expenses are expensed during the year in which they are incurred.
ARVIND WORLDWIDE INC.

March 31, 2016

Note 2  Summary of significant accounting policies (continued)

for either recognition or disclosure in the financial statements.
